BICKMORE

Safety Data Sheet
Bickmore Pine Tar

SECTION 1: Identification

1.1 GHS Product identifier

Product name	Bickmore Pine Tar
Brand	Bickmore

1.3 Recommended use of the chemical and restrictions on use

For outdoor wood treatment and varnishing, rope sealant, baseball bats, and equine care.

1.4 Supplier's details

Name	Bickmore
Address	10750 HI TECH DR. Whitmore Lake MI 48189 United States
Telephone	(734) 449-8500
email	compliance@edbrands.com

1.5 Emergency phone number

CHEMTREC: 1-800-262-8200

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture

GHS classification in accordance with: OSHA (29 CFR 1910.1200)

Not a hazardous substance or mixture.

2.2 GHS label elements, including precautionary statements

Not a hazardous substance or mixture.

2.3 Other hazards which do not result in classification

Not a hazardous substance or mixture.

SECTION 3: Composition/information on ingredients

3.1 Substances

Other names / synonyms: Pine Tar

Components

1. Tar, pine

Concentration	100 % (weight)
EC no.	232-374-8
CAS no.	8011-48-1

SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

If inhaled	If breathed in, move person into fresh air. If not breathing, give artificial respiration.
In case of skin contact	Wash off with soap and plenty of water.
In case of eye contact	Flush eyes with water as a precaution.
If swallowed	Call a poison center or doctor if you feel unwell. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Acute and delayed symptoms and effects: May cause gastrointestinal irritation. Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

4.2 Most important symptoms/effects, acute and delayed
No information available

4.3 Indication of immediate medical attention and special treatment needed, if necessary
No data available

SECTION 5: Fire-fighting measures

5.1 Suitable extinguishing media
Dry powder

5.2 Specific hazards arising from the chemical
Burning may produce irritating and toxic fumes, including carbon monoxide (CO) and polycyclic aromatic hydrocarbons (PAHs)

5.3 Special protective actions for fire-fighters
Firefighters should wear self-contained breathing apparatus (SCBA) and full protective gear.
Use water spray to cool containers exposed to fire, but do not use high-pressure water jets, as they may spread the fire.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. For personal protection see section 8.

6.3 Methods and materials for containment and cleaning up

Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13).

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid prolonged skin contact; wear protective gloves if handling large quantities.
Ensure adequate ventilation in work areas to prevent vapor buildup.
Keep away from heat sources, sparks, open flames, and other ignition sources. No smoking.
Avoid inhaling vapors.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area.
Keep container tightly closed when not in use.
Do not store near strong oxidizers or ignition sources.

SECTION 8: Exposure controls/personal protection

8.2 Appropriate engineering controls

Distribution, Workplace and Household Settings: Ensure adequate ventilation. Product Manufacturing Plant (needed at Product-Producing Plant ONLY): Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection
Distribution, Workplace and Household Settings: No special protective equipment required. Product Manufacturing Plant (needed at Product-Producing Plant ONLY): Use appropriate eye protection.

Skin protection
Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Respiratory protection
Distribution, Workplace and Household Settings: No special protective equipment required. Product Manufacturing Plant (needed at Product-Producing Plant ONLY): In case of insufficient ventilation wear suitable respiratory equipment

SECTION 9: Physical and chemical properties and safety characteristics

Basic physical and chemical properties

Physical state	Liquid
Appearance	Dark Black Liquid
Color	Black/Brown
Odor	Strong Tar Odor
Odor threshold	N/A
Melting point/freezing point	N/A
Boiling point or initial boiling point and boiling range	N/A
Flammability	N/A
Lower and upper explosion limit/flammability limit	N/A
Flash point	194°F
Auto-ignition temperature	N/A

Decomposition temperature	N/A
pH	5
Kinematic viscosity	N/A
Solubility	N/A
Partition coefficient n-octanol/water (log value)	N/A
Vapor pressure	N/A
Evaporation rate	N/A
Density and/or relative density	N/A
Relative vapor density	N/A

Particle characteristics
N/A

Supplemental information regarding physical hazard classes
N/A

Further safety characteristics (supplemental)
N/A

SECTION 10: Stability and reactivity

10.1 Reactivity
No data available

10.2 Chemical stability
No data available

10.3 Possibility of hazardous reactions
No data available

10.4 Conditions to avoid
No data available

10.5 Incompatible materials
No data available

10.6 Hazardous decomposition products
No data available

SECTION 11: Toxicological information

Information on toxicological effects

Acute toxicity
Prolonged exposure may cause mild skin irritation.

Skin corrosion/irritation
Prolonged or repeated contact may cause skin dryness or cracking

Serious eye damage/irritation
May cause mild, transient eye irritation.

Respiratory or skin sensitization
Prolonged inhalation of vapors may cause dizziness or respiratory discomfort.

Germ cell mutagenicity
No data available.

Carcinogenicity
Pine tar may contain trace amounts of polycyclic aromatic hydrocarbons (PAHs), which have been identified as potential carcinogens in high concentrations. However, this product is not classified as a carcinogen under OSHA (29 CFR 1910.1200).

Reproductive toxicity
No data available

Specific target organ toxicity (STOT) - single exposure
May cause temporary respiratory discomfort if vapors are inhaled in high concentrations.

Specific target organ toxicity (STOT) - repeated exposure
No data available

Aspiration hazard
No data available

SECTION 12: Ecological information

Toxicity
Pine tar is expected to be toxic to aquatic organisms in high concentrations. Avoid release into waterways.

Persistence and degradability
Expected to be slowly biodegradable under natural conditions.

Other adverse effects
Avoid discharge into drains, surface water, or soil to prevent environmental contamination.

SECTION 13: Disposal considerations

Disposal methods

Product disposal
Dispose of contents/container in accordance with local, state, and federal regulations.

Packaging disposal
Empty containers may retain product residue and should be disposed of properly.

Waste treatment
Do not discharge into drains or natural waterways.

SECTION 14: Transport information

DOT (US)
Not dangerous goods

IMDG
Not dangerous goods

IATA

Not dangerous goods

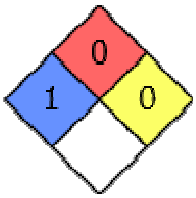
SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question

Canadian Domestic Substances List (DSL)
Chemical name: Tar, pine
CAS: 8011-48-1

Toxic Substances Control Act (TSCA) Inventory
Chemical name: Tar, pine
CAS: 8011-48-1

NFPA Rating



SECTION 16: Other information

16.1 Further information/disclaimer

DISCLAIMER: The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigation to determine the suitability of information for their particular purposes. In no event shall Bickmore be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, whatsoever arising, even if Bickmore has been advised of the possibility of such damages.
